

ITP External Web Service User Guide

Purpose

The purpose of this document is to provide a general description and usage guide for eRA's Intent To Pay (ITP) web service.

General Description

The ITP web service is available to set the ITP Code, Fiscal Year, Council Recommendation Code, and Council Priority. This ITP web service replaces the Procedural Language/Structured Query Language (PL/SQL) Application Programming Interface (API).

Security

The Secure Socket Layer (SSL) client certificate is required for authentication and authorization. The mapped user must have **ITP_SRVC_UPDATE_ROLE** role which includes the **EDIT_ITP_INFO_PRIV** privilege.

Pre-requisites

The caller must have a certificate from an authorized certificate provider that has been configured/registered for accessing this service. This certificate must be mapped to an account with the **ITP_SRVC_UPDATE_ROLE** role. Information on the usage of certificates can be found at http://inside.era.nih.gov/files/S2S_guide_for_eRA_webservices.pdf

Service locations

- Staging – <https://web-stage.aic.era.nih.gov/payplan/dataservices/itp-external/itp-update>
- Production – <https://services.internal.era.nih.gov/payplan/dataservices/itp-external/itp-update>

Operations

ITP currently supports one operation:

- [itpUpdate](#)
 - Update ITP related info of the grant.

Input Values

The following is an example request.

```
{
  "applId":11184878,
  "phsOrgCode": "GM",
  "itpFlag": "N",
  "councilRecomCode": "2",
  "fiscalYear": "2025",
  "councilPriority":"HPP"
}
```

Request parameters

applId	grant unique ID	
phsOrgCode	The code uniquely identify an IC	
itpFlag	The intend to pay code can be one of: Y, N, D, N ULL	

councilRecommendCode	The Council Recommendation code can be one of : 1, 2, 3, 4, 5, 7, 8, 9, NULL	1 - To be considered for funding (CF) 2 - Not recommended for further consideration (NRFC) 3 - Deferral 4 - No Recommendation Reported 5 - Not Extended 7 - IC Designated Not Considered 8 - Will Be Considered 9 - Advance Council to current FY NULL - Set to NULL
fiscalYear	The fiscal year of the grant	
councilPriority	The Council Priority code can be one of: CON, HPP, LPP, NRC, OTH, NULL	CON - Council concurred with IRG recommendation HPP - Council recommended a High Program Priority, application will be raised in order of consideration for funding LPP - Council recommended a Low Program Priority, application will be lowered in order of consideration for funding NRC - Not recommending concurrence with IRG OTH - Special circumstances NULL - Set to NULL

Output Values

The following is a sample of "success" output from the service:

```
{
  "responseCode": true,
  "errorMessages": []
}
```

Response parameters

responseCode	boolean to identify if the update is successful: true or false	
--------------	--	--

error Messages	json string to explain the validation errors for the input if anything wrong: example: <pre>{ "code": "APPLICATION_ID_IS_NOT_EXIST", "message": "Application Id does not exist"}, { "code": "APPL_STATUS_CODE_17", "message": "ITP can only be set to Null if application status is Pending IRG Review (17)"}</pre>	Here is the list of the error code and the corresponding error message: SYSTEMERROR - This application cannot be updated. System Error NON_AUTHORIZED_USER_FOR_THIS_REQUEST - Authorization fail: You are not authorized to update ITP and council details information for this grant INVALID_ITP_UPDATE_REQUEST - Invalid itp update request according the schema APPLICATION_ID_IS_NOT_EXIST - Application Id does not exist APPLICATION_ID_IS_REQUIRED - Application Id is required. APPL_STATUS_CODE_17 - ITP can only be set to Null if application status is Pending IRG Review (17) APPL_STATUS_CODE_70 - ITP can only be set to Null if application status is Entered into Computer (70) APPL_STATUS_CODE_03 - ITP can only be set to Yes if application status is Terminated (03) APPL_STATUS_CODE_19 - ITP can only be set to Yes if application status is Pending Award (19) APPL_STATUS_CODE_30 - ITP can only be set to No if application status is Withdrawn (30) APPL_STATUS_CODE_01 - ITP can only be set to No if application status is Withdrawn (01) APPL_STATUS_CODE_02 - ITP can only be set to No if application status is Withdrawn (02) IRG_RECOMM_CODE_NULL - ITP Code can only be set to NULL if IRG Recom Code is NULL and Application has been reinstated IRG_RECOMM_CODE_N - ITP Code can only be set to N if IRG Recom Code is NULL and Application status is withdrawn APPL_CLASS_CODE_CONTRACT - Update to Contract records is not allowed. SUBPROJECT_ID_NULL - Update to Subproject records is not allowed. COMPETING_APPL_TYPES - Update not allowed. The application type has to be 1, 2, 3 or 9 COUNCIL_MEETING_DATE_00 - Update not allowed. The application cannot be non-competing APPL_STATUS_CODES_0506_ITP_Y - Must be an awarded grant if setting ITP to Y INVALID_ITP_FLAG - Invalid ITP Flag. ITP Flag should be one of following Y, N, D. INVALID_COUNCIL_RECOM_CODE - Invalid Council Recom Code. Council Recom Code should be one of following 1, 2, 3, 4, 5, 7, 8, 9. INVALID_COUNCIL_PRIORITY - Invalid Council Priority. Council Priority should be one of following CON, HPP, LPP, NRC, OTH. INVALID_FISCAL_YEAR - Fiscal Year must be between 1000 and 9999. IRG_RECOM_CODE_6_COUNCIL_RECOMM_RECOM_CODE_7 - The Council Recommendation cannot be updated to 7 (IC Designated Not Considered) because IRG Recommendation Code is 6 (Not Discussed) COUNCIL_RECOMM_CODE_2_ITP_N - Update not allowed. For applications with Council Recommendation code of 2, ITP can only be set to N or NULL. COUNCIL_RECOMM_CODE_6_ITP_N - Update not allowed. For applications with Council Recommendation code of 6, ITP can only be set to N or NULL. FOA_NO_AWARDED_UNFUNDED_N - There are no awarded applications for this Opportunity. You cannot set the ITP code to N for applications in this Opportunity until at least one application has been awarded. NON_VALUE_WAS_CHANGED - no value was changed in this request
-------------------	---	---

Error messages/ Validations

- **HTTP 400 error**
 - If input data are invalid, the service will return 400 error.
- **HTTP 403 error**

- If user is not authorized
- **HTTP 500 error**
 - Unexpected Internal system error
